By Rosa Meija-Cruz, MA &
Margaret Davis, PharmD, R579

**José O. Rivera,
PharmD, R77**

current and founding dean of the
University of Texas at El Paso (UTEP)
School of Pharmacy, has been named
the 2023 receipt of the Paul F. Parker
Award.

The Paul F. Parker Award, a symbol of a lifetime of accomplishments, is awarded annually to a past resident of the University of Kentucky Pharmacy Residency Program or an individual associated with the success of the program. Recipients of the award represent sustained commitment to the advancement of pharmacy in teaching, research, or clinical practice. The awardee demonstrates a commitment to high ideals, pursuit of excellence, leadership, and innovation, and a passion for the growth and betterment of others.

Dr. Rivera started his pharmacy career at the Universidad de Puerto Rico in 1976, where he earned a Bachelor of Science in Pharmacy. He continued his studies at the University of Kentucky through the concurrent Doctor of Pharmacy degree and residency program in 1979, at the time lead by Paul F. Parker. His career has taken him far and wide, from University of Cincinnati to University of New Mexico to his significant contributions at UTEP. Dr. Rivera's career overflows with honors and accolades, with an extensive list of publications and presentations of diverse topics, numerous research projects benefiting his local population, and recognition for many awards.

The official presentation of the Paul F. Parker Award is scheduled for Tuesday, December 5, 2023, during the Paul F. Parker Award Luncheon at the ASHP Midyear Meeting. Congratulations to Dr. José Rivera and thank you for all that you have done and continue to do!

THE LEGACY CONTINUES

Each year welcomes a new group of residents, often a smattering of new preceptors, and, for the 2023–2024 year, several new program directors.

The Legacy Continues: Updates in Residency Program Leadership

KENTUCKY KONNECTION

Dina Ali, PharmD, BCCCP, R464

UKHC Good Samaritan Hospital PGY1 Residency Program Director

Ben completed his PGY1 Pharmacy Practice residency at Saint Joseph Hospital in Lexington, KY and then transitioned into an internal medicine Role at Good Samaritan Hospital. In his current role, he enjoys practicing at a progressive community hospital, lecturing at the University of Kentucky College of Pharmacy, and precepting pharmacy students and residents.

"As program director, I enjoy working alongside an exceptional group of pharmacy preceptors & helping residents achieve their professional goals."

UKHC Chandler Medical Center PGY1 Residency Program Director

Dina completed her residency training at UK HealthCare (R464), with her PGY2 focused in Critical Care finishing in 2018. She has been a Trauma/Emergency General Surgery ICU Pharmacist since completing her residency training, and recently accepted a brand-new role as the Epic Pharmacist Program Coordinator.

"The residency program has always meant so much to me, from being a resident to transitioning to a preceptor, then to assistant RPD. I am excited to join a long legacy of RPDs dedicated to enriching the education of our pharmacy residents and continue to foster our next generation of pharmacy leaders."

Ben Scott, PharmD, BCPS

The Legacy Continues: Updates in Residency Program Leadership

Elizabeth Autry, PharmD, BCPPS, R411

UKHC PGY2 Pediatrics Residency Program Director

Elizabeth completed her PGY1 training at ECU Health and PGY2 in pediatrics at UKHC. Elizabeth works with the Pediatric Pulmonary, Allergy and Immunology teams in both the inpatient and outpatient settings.

"I am excited to continue to build upon the rich tradition of residency training at Kentucky Children's Hospital while putting my personal touch on the experience. I am looking forward to expanding our preceptor numbers by engaging new and established staff in the precepting role. I hope to create and implement new educational opportunities. Long term I would love to see the program increase from two to three residents per year."

UKHC PGY2 Cardiology Residency Program Director

Kathleen completed her PGY1 and PGY2 in cardiology at UKHC. She practices as an Advanced Heart Failure, Heart Transplant and MCS Clinical Pharmacist and is the Clinical Pharmacist Coordinator for the Cardiovascular Services at UK HealthCare.

Kathleen Faulkenberg, PharmD, BCPS, FHFA, R415

Rachael Scott, PharmD, BCCCP

**UKHC Chandler Medical Center
PGY1 Acute Care Assistant
Residency Program Director**

"The UK Residency program has been a huge part of my personal and professional development over the last few years, and my program directors were a huge reason for that. I've enjoyed getting to know the residents and watching them grow during their time at UK, but wanted more of an involved role in both short- and long-term advancement of the program. We work seamlessly as a group, each bringing a different perspective, and I'm excited to see what we can add to an already incredible program."

**UKHC Chandler Medical Center
PGY1 Acute Care Assistant
Residency Program Director**

"My favorite part about being aRPD is seeing the growth of residents over time. I really enjoy watching the transition from nervous new provider to confident new practitioner and I wanted a more hands-on role with that. I also think I can bring a different perspective to the program since this is the 4th health system that I have worked/trained in."

Jackie Bishop, PharmD, BCCCP, R519

**UKHC Chandler Medical Center
PGY1 Ambulatory Care Assistant
Residency Program Director**

"I am passionate about mentoring pharmacy residents who wish to practice in the ambulatory setting. In this position, I hope to foster the same passion I have for ambulatory care in our future pharmacy leaders. My goal is for the ambulatory pharmacy program at UK HealthCare to provide a robust and fulfilling learning environment for our residents and for the program to continue to grow."

Mark Huffmeyer, PharmD, BCGP, BCACP, CACP, MSCS

Jay Wilson, PharmD, BCPS, BCSCP

Health-System Pharmacy Administration & Leadership Assistant Residency Program Director

"Residency training has always been a passion of mine and I would like to give back in a similar fashion as the preceptors I had throughout residency. My main goal as an aRPD for the HSPAL program is to ensure our residents receive a well-rounded experience that prepares them to pursue their desired position of interest post-residency."

UKHC Good Samaritan Hospital PGY1 Assistant Residency Program Director

"Learners continue to push us as clinicians and challenge us as mentors, advisors, and teachers. Being assistant RPD gives me the opportunity to be a point person for our residents when they need guidance and direction for their career and/or the daily struggles of residency life."

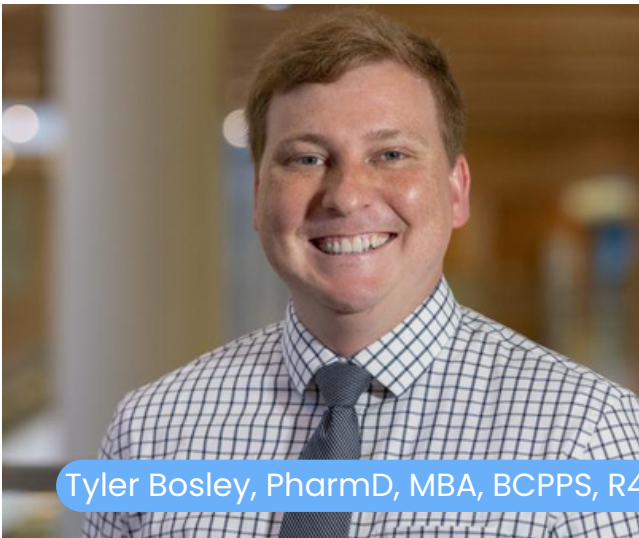

Jordan Kelley, PharmD, BCPS, R484

Kat Spezzano, PharmD, MBA, BCCCP

UKHC PGY2 Critical Care Assistant Residency Program Director

Kat completed her PGY1 and PGY2 in critical care training at the University of Chicago Medicine. She started at UKHC in 2021 and primarily practices in the Medical ICU.

Tyler Bosley, PharmD, MBA, BCPPS, R492

UKHC PGY2 Pediatrics

Assistant Residency Program Director

Tyler completed his PGY1 at Children's National Medical Center and his PGY2 in pediatrics at UKHC. Tyler accepted a position as a Pediatric Hematology/Oncology Clinical Pharmacist at UKHC after residency and has since transitioned to a Pediatric Clinical Pharmacist on the Acute Care/General Pediatrics team at Kentucky Children's Hospital.

UKHC PGY2 Ambulatory Care

Assistant Residency Program Director

Charles completed his PGY1 training at Providence Health & Services and his PGY2 in Ambulatory Care at Legacy Health. He started at UKHC in 2020 and works in the Pulmonary, Critical Care, and Sleep Medicine clinic in the Medicine Specialties department.

Charles Bodreau, PharmD, BCACP

Brittany Smith, PharmD, BCACP

UKHC PGY2 Ambulatory Care

Assistant Residency Program Director

Brittany completed her PGY1 training at the VA St. Louis Healthcare System and her PGY2 ambulatory care training at the UK College of Pharmacy/Bluegrass Community Health Center. She continued her ambulatory care career at UKHC following the completion of residency.

Meet the Residents

HOPE BRANDON, PHARMD, MBA (R577)

PGY2 PEDIATRICS

PGY1: UKHC Acute Care | Lexington, KY

Education: University of Tennessee College of Pharmacy |
Memphis, TN

TAYLOR CARR, PHARMD (R578)

PROFESSIONAL DEVELOPMENT EXPERIENCE

By Payton Atkins PharmD, R597
& Christina Cisar PharmD, MPA, R599

At the core of the UK HealthCare pharmacy residency program is a commitment to growth and continuous improvement. Although pharmacy residency has a longstanding history at UK, our culture embraces opportunities to enhance the program by exposing residents to diverse practices and perspectives. One unique approach taken by UK HealthCare's residency program is facilitating visits for the PGY1 and PGY2 classes to other residency programs, allowing residents to share information and learn from one another.

In November 2023, the PGY1 cohort embarked on a trip to Ohio, visiting two medical centers. Fourteen PGY1s, along with preceptors Eric Johnson (R405) and Christian Kressin (R511), traveled from UK Chandler Hospital to Cincinnati, OH for Happy Hour and networking with University of Cincinnati (UC) Pharmacy Residents. We spent the following day on-site at UC Medical Center, where discussions centered around distinctive aspects of both residency programs. One element that we particularly liked was the incorporation of a Morbidity, Mortality, and Improvement (MMI) Initiative, which allowed UC residents to have an active role in medication safety improvement and propose new workflow solutions based on adverse events.

KENTUCKY KONNECTION

After a full day of learning, we headed to Columbus, Ohio to visit The Ohio State University (OSU) Wexner Medical Center, led by RPD and former UK resident, Casey May (R419). There, we learned more about unique pharmacist-run clinics in the ambulatory care setting and the impact of their credentialing and privileging process on the pharmacist's scope of practice. Overall, it was interesting to hear the different approaches that various programs take when it comes to staffing, research, and on-call activities. Ultimately, we enjoyed our time collaborating with other health systems to broaden our horizon as it relates to current clinical practice. We are grateful to our hosts from UC Medical Center and OSU Wexner Medical Center for their hospitality and providing insight to their practice models!

PROFESSIONAL DEVELOPMENT EXPERIENCE

By Erin Williams PharmD, MBA, R595

In October of 2023, the PGY2 residents and three preceptors, Dina Ali (R464), Elise Metts (R416), and Katie Ruf (R369), had the opportunity to travel to Georgia to visit the University of Georgia College of Pharmacy in Athens, GA and Grady Memorial Hospital in Atlanta, GA. The first stop was Athens, GA where residents had the opportunity to participate in a panel discussion at the University of Georgia College of Pharmacy.

Notable members of the panel included Dr. Kelly Smith (Dean of UGA COP, former PGY1 RPD at UKHC and former Interim Dean of UK COP) and Dr. Rusty May (Assistant Dean for Extended Campuses and R98). Key take-aways from the panel were:

- Keep an open mind with your first post-residency job and know that your role will likely adapt many times during your career.
- Networking is important and the legacy of UK's residency program will follow you wherever you go.

Some additional points of discussion were how to identify mentors outside of residency, navigating the balance between academic and clinical responsibilities, and important questions to ask potential employers. After the panel, residents enjoyed lunch with faculty members and special guest Dr. George Francisco (R72).

The next stop for residents was Atlanta, GA where they got to visit Grady Memorial Hospital. At Grady, each institution had the opportunity to present information about their residency programs. This was followed by a fruitful discussion of areas for growth, professional development opportunities, research models, and much more. UK residents then had the opportunity to shadow pharmacists in their respective areas of interest to learn more about clinical practice at Grady and learning experiences Grady is able to offer their residents. To wrap up the PDE trip, residents visited the Coca Cola Museum and participated in the Pathogen Tour at the CDC.

2022-2023

PRECEPTOR OF THE YEAR

KATIE WALLACE, PHARMD, BCPS, BCIDP

Interview by: Savannah Poole, PharmD, R608

Dr. Katie Wallace is from Fort Wayne, Indiana and attended pharmacy school at Purdue University College of Pharmacy in West Lafayette, Indiana, graduating in 2013. She completed her PGY1 Pharmacy and PGY2 Infectious Diseases Residencies at Wake Forest Baptist Health in Winston-Salem, NC. Dr. Wallace also precepts APPE students and residents and became the PGY2 Infectious Diseases Residency Program Director in 2017. Her favorite activity is spending time with her big, chaotic family (she and her husband have 4 children that are 4 and under).

They love adventures, being outside, traveling (went to Denmark this summer!), camping, and spending time at the lake. In her nonexistent free time, she also enjoys exercising, going on walks with friends, listening to music, and trying out different restaurants. We asked Katie a few more questions to help the program at large get to know her better.

WHAT IS THE MOST REWARDING THING ABOUT BEING A PRECEPTOR AT THE UNIVERSITY OF KENTUCKY?

"I believe the most rewarding aspect of being a preceptor is the relationship you develop with your trainees. You both work hard to learn from each other and it's not just one-directional. You give and take and ultimately (hopefully) both end up better for it. I know that so many of my trainees have added so much value to my experience at UK either through

their contagious desire to learn more, an article they send me that I haven't seen yet, or just a positive presence that they bring to the rotation. As much as I love my job, it can get monotonous at times, and engaged trainees provide me with a fresh perspective and a renewed appreciation for all that we can learn from and contribute to our patients. I've realized after all of these years, both personally and professionally that nothing great in life is easy, especially when it comes to relationships (and exercising...). The best ones take hard work, dedication, and a genuine care for the other person."

PRECEPTOR OF THE YEAR

KATIE WALLACE, PHARMD, BCPS, BCIDP

**WHAT IS THE BEST PIECE OF
ADVICE YOU HAVE EVER
RECEIVED?**

"I have been blessed with multiple mentors who stressed the importance of knowing your own values and priorities when it comes to making decisions for your life. It can be very easy to forget what you are running toward if you don't have a clear outcome or goal in mind. I think I would have spent most of my life "climbing the ladder of success only to find that the ladder is leaning against the wrong wall" if it hadn't been for great advice from wiser people and also the ups and downs of life. I'm grateful to now understand, with great clarity, that the best you can do is to live in the present, be a good listener (still working on that one), and love the people around you."

"My advice would be to make sure that you define your "why" when it comes to precepting so that you know what you hope to achieve through that experience. I think many trainees, including myself initially, want to be preceptors because it seems like the logical next step to pay-it-forward. But precepting can be incredibly difficult, and is a significant emotional investment at times, and so it is important to have a clear understanding of why you want to precept. My "why" has changed over the years, but I can confidently say that precepting is probably the most gratifying part of my job. It takes patience and passion, and the reality that you only have control of your own actions, but it's so worth it if you approach the experience with the correct perspective and positive intent."

**WHAT ADVICE DO YOU HAVE
FOR RESIDENTS WHO ARE
ASPIRING PRECEPTORS?****WHAT IS THE HARDEST PART
OF PRECEPTING?**

"I think two aspects have been the hardest for me as a preceptor. The first one, and this is just the honest truth, is that it can feel near impossible to precept a trainee who doesn't have the desire to learn. Those experiences can cloud your general perspective on precepting. I have learned to teach many things over the years, but I still haven't figured out how to teach a trainee to care (let me know if you've figured out the secret!).

2022-2023

PRECEPTOR OF THE YEAR

KATIE WALLACE, PHARMD, BCPS, BCIDP

KENTUCKY KONNECTION

The second hardest part is when you want to be able to give your trainee more time and attention but are experiencing a month where the other priorities of your job, the patient census, etc. don't allow for that. I struggle with this at times and have to remind myself that I'm doing the best I can within the time frame that I have. I personally think the hardest parts of precepting are minimal in comparison to the great parts."

"My favorite part of precepting is getting to know the trainee as a whole person. Of course, I am focused on their ID-specific learning, but I find that I can better understand how a person thinks when I understand who they are as a person. This makes me a much more effective preceptor and there is no greater joy then when you get to see things finally "click" for him/her. It's also incredibly gratifying to hear from your trainees later on about an ID case they had or their appreciation for some way that you have impacted them. When you are a mentee, I think it is incredibly clear to you the impact that your mentor has, but when you are a preceptor/mentor, it can be more subtle, so I'm not always aware of whether I'm having a positive impact on that resident or not. That is why winning this award was such a wonderful surprise and easily my biggest professional accomplishment (in my eyes).

WHAT WERE THE QUALITIES OF YOUR MOST INFLUENTIAL PRECEPTOR AS A RESIDENT?

WHAT IS YOUR FAVORITE PART OF PRECEPTING?

I had just gotten back from another maternity leave last year, was still figuring out how to balance life again, and struggling at it, but I tried to just focus on doing my best each day as a preceptor, and what an amazing award to receive to affirm that. My husband will tell you that I walked in the door that night absolutely beaming and was thrilled to share the news with him, and my kids, who only partially understood 😊."

"My most influential preceptor was incredibly tough but it was clearly from a place of love and a desire to improve the skills of his trainees and improve patient care. He was someone that everyone admired and respected due to his ability to be kind AND honest, even if it required a difficult conversation. Although I definitely don't think I'm considered the toughest preceptor, I do try to emulate his honest feedback and kindness, especially if it is for the betterment of the trainee. He was also very intelligent and seemed to know the answer to everything which is why I appreciate my trainees bringing new articles to my attention so that I can try and stay up-to-date on the ever-changing ID landscape."

Becca Bruning, PharmD

Nicole Hume, PharmD

Ariana Chambers, PharmD

EXTRA MILE AWARD

BECCA BRUNING, PHARMD (R557)

Given to a resident who consistently goes above & beyond for their co-residents & maintaining a positive attitude

NICOLE HUME, PHARMD (R561) <<<

Given to a resident who is anticipated to have a great impact on professional practice

IMPACT AWARD

RESIDENT OF THE YEAR

ARIANA CHAMBERS, PHARMD (R568)

Given to a resident who maintains of professionalism, serves as a positive role model, and promotes pharmacy education

WHERE R THEY NOW?

A longstanding tradition, the R Map stands as a reminder of the legacy of pharmacy training at the University of Kentucky and an opportunity to both look forward to and reflect back on our time at UKHC. Each fall, new residents pin their R number in “little” Kentucky. Each spring, graduating residents move their R number to their new destination. Here’s a look at where the class of 2022-2023 landed.

Connor Anderson (R556), Inpatient Pharmacy Supervisor, Parkview Health Regional Medical Center, Fort Wayne, IN.

Cassidy Potts (R563), Outpatient Pharmacist, Baptist Health, Lexington, KY.

Alex Sutphin (R576), Clinical Pharmacist, UKHC Good Samaritan, Lexington, KY.

Taylor Harris (R572), Critical Care Float, Inova Fairfax Medical Campus, Fairfax, VA.

Nicole Hume (R561), EGS/Trauma Clinical Pharmacist, UKHC, Lexington, KY.

Morgan Ostinowsky (R562), Decentralized Clinical Float, UKHC, Lexington, KY.

Anna Sahlstrom Drury (R564), Neurology & Cardiology Critical Care Float, Nationwide Children’s Hospital, Columbus, OH.

Megan Cavagnini (R567), Emergency Medicine Clinical Pharmacist, Memorial Health University Medical Center, Savannah, GA.

Hayley Hall (R571), Ambulatory Care Pharmacist, UKHC Family & Community Medicine Clinic, Georgetown, KY.

Sera Andras (R566), Ambulatory Care Pharmacist, UKHC Fountain Court Primary Care Clinic, Lexington, KY.

WHERE R THEY NOW?

Jasmine Forrest (R558),
Hematology/Oncology
Clinical Pharmacist,
William S Middleton
Memorial Veterans Hospital,
Madison, WI

Tim Hamer (R560),
Ambulatory Oncology
Clinical Specialist, The
Christ Hospital, Cincinnati,
OH

Ariana Chambers (R568),
Outpatient Oncology
Clinical Pharmacist UKHC,
Lexington, KY

Abby Krupnik (R574),
Cardiology Clinical
Pharmacist, Northwestern
Memorial Hospital,
Chicago, IL

Kamron Griffith (R569), HIV
Clinical Pharmacy
Specialist, Parkland Health,
Dallas, TX

Becca Bruning (R557),
Infectious Diseases &
Antimicrobial Stewardship
Clinical Specialist, Houston
Lee Moffitt Cancer Center,
Tampa, FL

Kaylee Worsham (R565),
Clinical Float, University of
Tennessee Medical Center,
Knoxville, TN.

Courtney Jurgens (R573),
Abdominal Transplant
Clinical Specialist,
Methodist Le Bonheur
Healthcare, Memphis, TN

Paige Grube (R570),
Neonatal Intensive Care
Unit Clinical Specialist,
Cincinnati Children's
Hospital, Cincinnati, OH

Logan Oatman (R587),
Clinical Pharmacist,
Appalachian Regional
Health, Hazard, KY

Elizabeth Patt (R575),
Emergency Medicine
Clinical Pharmacist,
Nemours Children's
Health, Wilmington, DE

Hunter Matthews (R586),
PGY2 Psychiatric
Pharmacy Resident, RWJ
Barnabas Health:
Behavioral Health System,
Toms River, NJ

Michael Behal (R537),
Critical Care Pharmacist,
Parkwest Medical Center,
Knoxville, TN
